

## **KEBA KeContact P30 E.V. Ready EV3 conformity**

We hereby confirm that the contactor used in our products (KC-P30-xSxxxxxx-xxx-xx) fulfil the requirements of section 8.1.7 (additional requirements for equipment suitable for isolation) of *IEC 60947-4-1:2009+A1:2012*. Therefore, our products fulfil the E.V. READY requirement EV3 (E.V. READY technical Reference Document version 1.4B) and thus an additional contactor installed upfront is not necessary.
